

Memory reVITALIZER®		Serving Size: 6 Soft gels Daily (4 Morn. & 2 lunch)	
Supplement Facts:	Per Gel	Daily	%DV*
Alpha-Lipoic Acid	15 mg	90 mg	†
d-Alpha Tocopherol (vit. E)	40 IU	240 IU	2400%
Ascorbic Acid (vit. C)	50 mg	300 mg	500%
A vitamin (palmitate)	750 IU	4500 IU	450%
Beta Carotene	1500 IU	9000 IU	900%
Bioflavonoids (lemon)	15 mg	90 mg	†
Boron (citrate)	10 µg	60 µg	†
Coenzyme Q10	6 mg	36 mg	†
Copper Gluconate	75 µg	450 µg	23%
DMAE	11.25 mg	67.5 mg	†
Eleutherococcus Senticosus	15 mg	90 mg	†
Folic Acid (vit. B9)	120 µg	720 µg	180%
Ginkgo Biloba (50:1)	15 mg	90 mg	†
Ginseng (10% Panax)	12 mg	72 mg	†
L-Glutathione	20 mg	120 mg	†
Gotu Kola	20 mg	120 mg	†
Grape Seed Extract	35 mg	210 mg	†
L-Lysine	30 mg	180 mg	†
Magnesium (citrate)	8 mg	48 mg	14%
Manganese (citrate)	0.5 mg	3 mg	67%
L-Methionine	30 mg	180 mg	12%
Methylcobalamin (vit. B12)	20 µg	720 µg	3000%
Nicotinamide (vit. B3)	4 mg	24 mg	150%
Pantothenate, d-calcium (vit. B5)	10 mg	60 mg	1200%
Papain	1.5 mg	9 mg	†
Phosphatidylcholine	80 mg	480 mg	†
Phosphatidylserine	5 mg	30 mg	†
Pyridoxine HCL (vit. B6)	3 mg	18 mg	1059%
Pyridoxal-5-Phosphate (active B6)	0.6 mg	3.6 mg	212%
Riboflavin-5-Phosphate (vit. B2)	1 mg	6 mg	462%
L-Selenomethionine	10 µg	60 µg	100%
Taurine	15 mg	90 mg	†
Thiamine (vit. B1)	4 mg	24 mg	2000%
Tocotrienols, mixed	31 mg	186 mg	†
Zinc (citrate)	3 mg	18 mg	120%

* Percent Daily Value are based a 2,000 calorie diet.
† Daily Values not established

CAUTION: Not a significant source of dietary fiber, sugar or cholesterol. With other supplements, do not exceed 400 µg Selenium, 15 mg Riboflavin (B2 vit.) or 60 mg of Pyridoxine (B6 vit.) daily.

Other Ingredients: Soybean oil, Beeswax (yellow).
Softgel capsule (kosher Gelatin, Glycerin, Water, Titanium Dioxide, Blue #1)

This product contains No Wheat, Gluten, Nuts, Treenuts, Egg, Milk, Fish, Shellfish.

THIS PRODUCT AND THESE STATEMENTS HAVE NOT BEEN EVALUATED BY THE FDA. THIS PRODUCT IS NOT INTENDED TO DIAGNOSE, TREAT CURE, OR PREVENT ANY DISEASE.

-★TESTIMONIALS★-

26 year old man finds ENERGY of YOUTH

I use Memory reVITALIZER® to keep up mentally in my demanding job. To my amazement, it allows me to keep up with the teenagers that I lead in our church youth group. RL, Apple Valley, CA

40 year old housewife's MEMORY IS BETTER

Years ago, I had a severe head injury. I was always forgetful and fatigued. I started Memory reVITALIZER® 4 years ago, and wow! I now work in accounting in a national company. Thanks reVITALIZER! --CK, Bell Flower, CA

45 year old EXECUTIVE FEELS BETTER

I am a recovering alcoholic who works in Finance for an international company. Memory reVITALIZER® helps keep me sharp at all times, even after travel to Europe. --SH, East Mountains, NM

73 year old man discovers, "YOU GOTTA TAKE ALL 6 GELS"

I had taken one Memory reVITALIZER® gel a day for several months, and thought it did not work. I was going to write and complain, but my wife read the bottle and told me "you gotta take all 6 gels.". What a difference!! Now I take six gels daily, and feel great. --DL, Emery, ND

76 year old heart patient finds SAFETY WITH OTHER MEDICATIONS

I started Memory reVITALIZER® in a nursing home with severe heart failure. I was on many medications. I was reassured Memory reVITALIZER® would not negatively interact with my numerous medications. My memory is much better. My energy is better, and my heart health is better. --GG, Brownsville, TX

80 year old woman COMPARES "VALUE" TO "INEXPENSIVE"

My son, a doctor, recommended a less expensive supplement. When I compared the ingredients of Memory reVITALIZER® to it, reVITALIZER was complete and superior. I have taken it for several years. My energy level is high. My memory is terrific. --SB, Ft. Lauderdale, FL

88 year old wife SPRUNG FROM NURSING FACILITY

My wife, after six months on Memory reVITALIZER®, improved enough to graduate from a nursing facility. She has been at home with me, enjoying walks, and a normal life for over a year. Sure Dr. Summers did a lot of things to make this improvement; but I credit reVITALIZER. --DG, ABQ, NM

Memory reVITALIZER®

PATENTED COMPLEX ANTIOXIDANT BLEND FOR

Memory - Energy - Cardio - Health

6000 Uptown, Suite 308
Albuquerque, NM 87110
Dial 1.800.606.0192

www.memoryrevitalizer.com

Memory reVITALIZER® was developed by Neuro-scientist and Medical Doctor WILLIAM K SUMMERS. He is an experienced physician with 40 years of clinical practice. He is an established scientist with over 50 reviewed papers and eight patents. He developed and patented tacrine (Cognex®) the first FDA approved treatment for Alzheimer's disease.

Memory reVITALIZER® is a SUPERIOR Antioxidant Blend for general wellness. Six softgels taken daily contain representative of five antioxidant classes: amino acids, herbals, lipids, minerals, and vitamins. Each component synergistically aids in the repair or cleansing of free radical damage that builds up in the body over time, called "aging". The effects of Memory reVITALIZER® on memory and energy means it is used by a broad range of people, from students to the elderly. To date, there are no known drug-drug interactions with prescription medications. Memory reVITALIZER® meets good manufacturing practice standards (GMP).

Memory reVITALIZER® is proudly formulated, to:

- ★ Slow the aging process
- ★ Enhance memory
- ★ Improve cellular health
- ★ Stimulate mental / physical energy
- ★ Improve quality of life

Abstract presented at The Society for Neuroscience in October 2009.

"COMPLEX ANTIOXIDANT BLEND IMPROVES MEMORY IN COMMUNITY DWELLING SENIORS."

Thirty percent of healthy non-demented community-dwelling elderly have complaints of decline in memory function. Cognitive decline from baseline has been documented in 18.2% of older persons followed over three years. Although memory complaints can predict neuropathologic diseases, most elderly memory complaints are not due to neurological disease. Products that improve memory in normal community dwelling elderly are not established. Numerous health supplements and herbal preparations claim memory improvement, but do not offer proof.

This study evaluated the effect on memory capacity of a potent complex antioxidant using non-demented community dwelling seniors over a four month period. The complex antioxidant blend used, contained 34 antioxidants representing five classes of antioxidants.

113 subjects were recruited from the general Albuquerque metropolitan area. Minimum exclusion criteria were applied. Subjects were to be non-demented and living independently in the community and between the age of fifty and seventy-five. The subjects were not paid to participate, nor reimbursed for expenses.

The intake interview recorded demographic data, medical history, a complete listing of prescribed medications, over-the-counter medications, and health supplements. Baseline age, height, weight, waist size, gender, and race data were collected. A baseline battery of memory tests was administered. Treatment was randomly assigned to ingest six gels of a 34-component antioxidant blend or six gels of placebo (lactose and bitter flavor) each day for four months. The subjects were seen at one month and four months after receiving their study drug. Interval medical history was taken and the memory test battery was administered.

The memory test battery included the Mini-Mental Status Examination (MMSE) to rule out presence of dementia, a 20-word free-recall test (20WRT) of short-term memory, a 50-item Names-Learning paired association test (NLT50). These tests were administered in about 30 minutes.

www.memoryrevitalizer.com

The 20WRT tested immediate recall, putatively testing hippocampal competence. The word list was different with each trial.

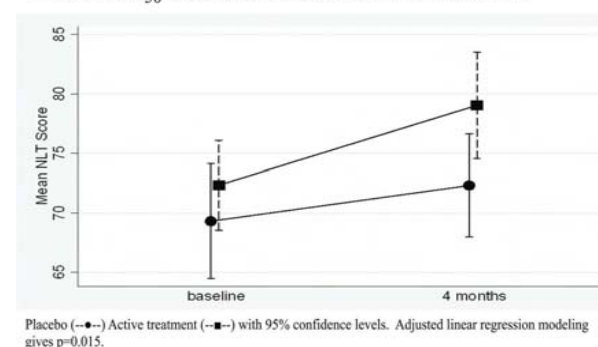

Mean 20 WRT Scores At Baseline And 4-Months

After 4-Months statistically significant 1.7 point higher change in the active group compared to the placebo group.

The NLT50 addresses higher cognitive centers linking frontal lobe, occipital lobe, and hippocampus. The NLT50 putatively views superior temporal lobe function. Each NLT50 used was a different list of associated pairs to eliminate long-term memory effect.

Mean NLT₅₀ Scores At Baseline And 4-Months

After four months revealed a statistically significant 5.2 point higher change in the active group compared to the placebo group.

Conclusion:

1. This potent blend of 34 antioxidants significantly improves immediate and working memory in 'normal' community dwelling seniors, aged 50 to 75 years.
2. This potent blend of antioxidants significantly reduces serum homocysteine in 'normal' community dwelling seniors, aged 50 to 75 years.
3. No significant adverse drug effects were reported during the course of this study.
